THE SAILORS' STRIKE

It Appears to be Ended Against the Oceanic Company.

The Oceanic Steamship Company has discharged all of the Chinese on board passed. As there was no emergency for the steamer Australia and has engaged white men to work in their places. Nine white coal passers and an equal number of white firemen were taken aboard on the 27th of September. Ten of the eighteen men are members of the Steamshipmen's Protective Association. It is understood that white men are to be secured for the Zealandia, Alameda and Mariposa. A telegram was received the same day from Sydney to the effect that when the Mariposa entered the harbor with Chinese coal passers and firemen the union men in port refused to declare war on her, presumably because there were several members of their union aboard the steamer. From these indications it is apparent that the strike against the Oceanic Company is approaching its termination.
